

Are You Ready to Connect?

The TrustCommerce Community Connect Program fully supports Epic Community Connect environments allowing Epic health systems to extend their payment functionality through their Epic EHR to organizations in their community or region.

TrustCommerce Integration

Our standard Community Connect program allows organizations using Epic to easily extend payment workflows to other organizations while keeping funding, reporting, and invoicing separate from their own organizations.

The Community Connect Hub maintains all necessary software upgrades specific to Epic and TrustCommerce.

Once the Hub upgrades, everyone will have the ability to take advantage of that functionality!

The Players

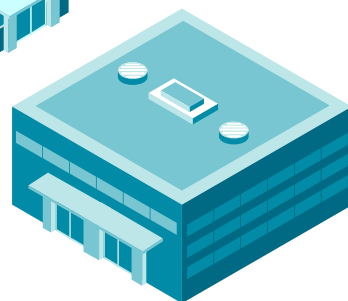

The Hub

The hub is a hospital or health system that extends their Epic electronic health record platform, including integrated payment processing, to independent practices and hospitals (Community Connect sites).

Connect Sites

Independent practices and hospitals that use Epic through a hub instead of directly from Epic, allowing for more seamless exchange of patient data within the same community.

TrustCommerce

TrustCommerce is a one stop shop for Community Connect organizations. Natively integrated with Epic, provides omnichannel payment workflows.

TrustCommerce supports payments everywhere Epic can.

- MyChart
- Resolute
- Willow Ambulatory
- Welcome Kiosk
- Supports Hyperspace and Hyperdrive versions of Epic EHR and Cloud Payments.

Provide your Community Connect sites with a comprehensive payment offering through Epic

You can extend all the great benefits to your Connect sites.

- Supports the main card presentation methods, including EMV, NFC, and MSR transactions. Credit card, debit card, ACH, and digital wallet (Google Pay, Apple Pay), IIAS, FSA debit cards, and HSA cards
- Tokenization for card on file, including shared tokens across Epic applications.
- Payment plans
- Validated point-to-point encryption

We'll work together with Epic clients to ensure high levels of service for both your organization and Community Connect sites. Contact us to get started.
